

**EPSILON INDIA**  
*Bright and Early*

# SUMMER INTERNSHIP

for Mathematics/Computer Science Undergraduates,  
Masters and PhD students

Are you a student who is

- Confident enough to clear doubts in UG level topics in Mathematics?
- Enthusiastic in teaching and learning?
- Seeking an internship opportunity to learn from an international-level Math summer camp for highly abled students?

# Teaching Assistant

Epsilon India - a *residential camp* for highly abled students in Mathematics is looking out for interns, who can work as a teaching assistant for some of the brightest and most motivated young minds in the field of math. Interns will work closely with Mathematicians and Computer Scientists from within and outside India who will be teaching in the camp. The camp topics will be advanced math curriculum for gifted students aged 9-13.

## Perks:

- Gain experience and develop unique perspective in education and child development especially with high ability students
- Build leadership skills by leading group activities and games
- Explore opportunities to network with other professionals in the field of math education
- Personal and professional growth
- Free food and accommodation on campus
- A handsome stipend, certificate and letter of recommendation for your contribution to Epsilon India
